ROBLOX has also been criticised for its lack of badge incentives for participating in games, or even logging into the site at all. ROBLOX models these badges and credit prizes after the badges found in games like Journey, where a lot of doing nothing gives you a lot of money, which is possibly a reason some players don't log in. ROBLOX also has very few quests to complete that reward badges/credits.

On January 1st 2021, ROBLOX released a new core version update for their engine. They are now using a new source engine called "Bloxxet" and integrated a new built-in physics engine into the game. This feature will allow users to play in one of three different modes: Classic ROBLOX mode which uses the older physics system from ROBLOX, Bloxxet mode which uses the new physics system in ROBLOX 2.0 and fixed bugs, and Customized mode which allows players to customize their own physics setting. This update was expected to start being released in-game on January 15th 2021.[101] This release ended up having some bugs which caused users to get stuck in the game and crashes.[102] However an update was released a few days later, which fixed most of the bugs and added more control for players to customize their suitable physics settings.

I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where I spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game! If you look at the way the majority of games are played you realize that one person or a group of players will have a significant advantage over another unfairly and those who aren't as good will be forced to pay more for their virtual items in order to keep up with the better players. Her parents did not approve of this decision and they started a petition on Change.org to get their daughter unbanned back on Roblox. They stated that her ban would be a violation of their privacy rights as well as an infringement upon her civil rights, as a minor. The family requested that Roblox reverse its ban of Arielle and instead give her a warning to stop future harassment, which she committed while playing "Minecraft". The petition received more than 50,000 signatures in less than 12 hours. However, it was then reported by users that the petition had been removed from the website soon after it began. As soon as the petition was received by Roblox, it was announced that her account would be reviewed and further action would be taken in response to how she had "been conducting herself online".

Who would want to play a game like this? Nobody really I would think. It's just like Roblox in that you can buy stuff with fake money, but there is no value in either one of them. The real issue is that the developer(s) of both games are making a ton of money from people who don't care about winning or losing, they just want to have fun.
