While it may not be true to say that all games on ROBLOX are made with ROBLOX's scripting language, this is true of the vast majority of games on the site. The scripting language is easy to learn, but more advanced scripting calls can be difficult to implement for users who do not know the syntax or do not have the time. This has led to many third-party solutions (modification of gameplay, ROBLOX engine modifications and others) being made by experienced users so that less experienced users can get a head start in the game development process.

There is also a Roblox version called Roblox. The most popular online game that users play on ROBLOX is called ROBLOX. World of Warcraft
