On May 24th 2021, ROBLOX announced another update for their Studio 2.1 version. This update, known as "Studio 2.1.1", was released to the public on May 31st 2021.[98] Like many other platforms, ROBLOX also has an adult chat system. This is usually used by roleplayers and other users who wish to talk about mature topics freely. However, players have abused this feature by advertising Roblox pornography websites or trolling innocent users.[99] Some users have also used the system to claim that their username is "Not suitable for children" or use inappropriate usernames in order to get attention from others.[100] It is unknown whether ROBLOX will ever remove this feature from their platform.

There are a lot of ways to get Robux without actually doing anything. Here are some of the ways you can do so. 1. Trade other players for robux in the Roblox economy. 2. Extract robux from your account in the Roblox game itself. 3. Search for websites that offer free Robux or offers codes to download them. 4. Use our guide on how to get hackers and crackers to store money on your computer, Bitcoin wallet, or use their internet services such as VPNs or proxy server. 5. Purchase them through an online marketplace. 6. It is possible that if you bought games in the store, you would get robux as a promo. 7. It is also possible that if you subscribe to some games' channels on YouTube, they give you free robux. 8. Try and beat high scores so that developers share some money for free. 9. Submit a new game and hope to be featured by Roblox itself because the developers said so.

On February 2nd, 2021, an announcement was made by ROBLOX as they were planning on allowing users to purchase 'Clips' which are in-game blocks and scenarios that can be used in their games.[108] These Clips would later become part of their new launch system that will be called Studio and released at a later date.

On January 24, 2021, ROBLOX released a new version 3 logo to replace the one that they had been using since 2021. The new version of the logo still has no color in it; however, it now uses vector graphics, as opposed to bitmap graphics on previous logos. This new logo also included a small R inside a circle which represents ROBLOX's focus on imagination and creativity.

ROBLOX is built upon a custom system that includes its own scripting language and core programming languages. While it may not be true to say that all games on ROBLOX are made with ROBLOX's scripting language, this is true of the vast majority of games on the site. The scripting language is easy to learn, but more advanced scripting calls can be difficult to implement for users who do not know the syntax or do not have the time. This has led to many third-party solutions (modification of gameplay, ROBLOX engine modifications and others) being made by experienced users so that less experienced users can get a head start in the game development process.

It has a lot of fun games to play like the space adventures, castle defense and many others. I would say that recommended this game to anyone who likes to play on the computer or laptop or anything else with computers. Overall it's pretty good.
