ROBLOX is the first game that was fully playable on the internet. [109] [110] Before this, the closest thing to a full-fledged multi-player online roleplaying game existed was back in 2021 when MUDs were fairly popular. [111] ROBLOX was the first mainstream online game that allowed players to make a profile, interact with others, earn virtual money and characters through gameplay, and even have fun by creating their own levels and games. The old low-quality Roblox customers could still use the old "free builder's club" system and low quality builder's club cards that would work with those box generators. This way connection and gaming would not be counted against them for their website slot time. The old low-quality builders club gives the user the ability to make games that last up to 30 days on ROBLOX. Now if the free builder's club gift card system is used in conjunction with the low quality builder's club, it will give the customer a total of up to 60 days for their web slot time. This free builder's club method will be able to help customers who had previously spent money on a high quality builders card and don't want to purchase another one. The old low-quality users would be able to use this free builder's club method and spend no money at all possibly for up to 60 days or more by using this method. The low quality gift cards could possibly be given to any customer and amass a lot of money to spend on their website. This old method could possibly be used by the customer as a way to gain some money from their time, or even as a potential way for customers to earn money without having to purchase a high quality builder's club. Therefore, if the user had one of these low-quality gift cards, they can play games on ROBLOX for extended periods of time (such as up to 60 days or more). This plugin has been discontinued due to its age and because no working source code is available. However it is possible for someone with programming experience to develop a similar free builder's club plugin. Its functionality would be the same as the original one.

Farmville: This is yet another example of a game that doesn't really offer any value at all but still manages to make a ton of money. It's a very bizarre concept which involves fun because you think you're going to become rich by buying fake farm products and selling them or you can become popular by posting pictures of your fake farm products and getting attention from people who want similar things. I mean, if this is what people want then it's really no different than Roblox except with Farmville you're dealing with real money.

The majority of players on ROBLOX do not have any way to benefit from the game anymore because they're not willing to pay real money for fake money (robux), so they get bored and quit. They know there is no value in this game so why should they waste their time on it?

Not all games are created equal and often we see them develop at an incredibly fast pace which makes us believe that this process will be smooth and easy but it doesn't always happen that way: first of all, people often have unrealistic expectations for themselves and secondly they forget to look at what others are doing and how the market reacts to new games.
