I also remember back when Minecraft was first released, how difficult it was to find anyone who was willing to play with you or help you if your work didn't work out; but I did find my lovely wonderful best friend through Roblox and we play together every single day. Even though there is no one on my friends list, I can still go into Roblox and join a game with other people. When I do that, my friend will always join me if she's in the same room. But even so, I never have any actual friends in-game because it becomes a very lonely experience as time progresses.

In ROBLOX, safety is one of the main concerns facing parents. The website can sometimes be a risky place for children because they sometimes come across people being rude, bullying, etc. [138]. ROBLOX is doing its best to make sure that its users stay safe while playing games. First, ROBLOX has safety features in place. A "report user" button is at the bottom right of every player's screen. This button appears if someone is acting rude to you in a game. Pressing it leads you to a page where you can add as much detail as you can about what happened and why it was wrong. The person reading the complaint will then investigate the situation and take necessary actions towards offending players. Players have also found ways to use this button for wrong reasons, like falsely reporting users to get them banned from playing ROBLOX.

I guess that's one of the reasons why Minecraft is so popular; it's simple and easy to understand, because of things like having to collect resources to build things. Most YouTube videos will give you a link that will provide you with a free Robux reward. The amount depends on how many views the video has and the number of subscribers the user has. For example, if an account has over 1 million subscribers, they'll give an extra 2,000 robux for any views that would put them over 10,000,000 views; however this only applies before rewards are scaled down.
